HCC Foundation,

I'm writing to thank you so, so much for your award of the NC Woodworkers Scholarship. As a student in the Professional Crafts: Wood program, I am honored to have been selected to receive funds donated by those I hope, not too long from now, to call my peers. I love the craft program at HCC, and receiving a scholarship to attend gives me so much more time to spend designing new pieces, staying late in the workshop, and resting up, rather than working late into the night to afford both educational and living expenses. I've been talking to my classmates for the past year about our plans following graduation, and even before that- some of us have already begun to make sales (a nice lady in Sylva bought bundle of wooden spoons from me!), and some of my dear friends just recently won awards at the IWF convention in Atlanta. Most of all we're excited to begin working in the area; there are so many talented woodworkers in western North Carolina, we can't wait to learn more from them and add our own contributions.

All this is to say that with this scholarship, I'm able to spend more of my time where I want it, which is invariably at school or other places I can think about and work on my craft. Thank you so, so much for this award, thank you for the work you do to give the same to other students at HCC, and an enormous thank you to the NC Woodworkers Scholarship funders, who make this all possible. I will do everything I can to make the award count and make the very best of every minute here at HCC.

Sincerely,

Daniel Grimes
