Thank you for the financial aid from the North Carolina Woodworker Scholarship towards my attendance to the Woodworking program at Haywood Community College. Working with my hands has always been a passion of mine and a positive reinforcement in my life. This aid is a great amount of help in addition to my part time job I will have to have to support myself. I can now focus even more on my education and future projects in wood. I am genuinely excited to extend my skills with guidance and to be able to teach woodworking and ways of sustainable design practices. I think creating sustainably should be part of our goals as designers, artists, craftsmen and beyond those realms. I am so Thankful for this foundation for providing me this scholarship.

Esi Hutchinson
